PARIS, KENTUCKY, FRIDAY, MARCH 6, 1908

NUMBER 6

Mayor O'Brien Interviewed.

A News man met Mayor O'Brien yesterday and inquired of him if he had read the article published by the Paris School Board and what he thought of it? He had the following to say:

"The only ones having any personal interest in this controversy are the taxpayers. The real and only issue involved—whether the profits arising from the use of this money shall go to the people or to the Citizens Bank, a private corporation—cannot be evaded by a vulgar and unseemly resort to invective or abuse; neither can the settlement of a public question be arrived at any sooner by such methods."

"Notwithstanding the pronouncement of the Board of Education, which seems to have resolved itself, for the occasion, into a court of last resort—the particular question of law involved is ambiguous and uncertain; until its meaning is declared by a court of competent jurisdiction, to which it will be submitted next week, it would have been much more dignified to have awaited the decision before initiating such a communication upon the public."

"The assertion that upon the affirmation, by the Court of Appeals, of a judgment in favor of the Board of Education, ten per cent. damages, amounting to \$4,200, would be assessed against the city, is rather hard to understand. Under the Code such damages are only awarded upon the affirmation of judgments for the recovery of money and the Court of Appeals has expressly decided that a judgment granting a mandamus is not a judgment for the recovery of money."

"Under such circumstances, one might well be pardoned for suggesting that it is possible for even the Board of Education to be mistaken as to what the law really is. The threat to discontinue work upon the building and the harrowing picture of the wrecked and ruined structure might also suggest that some of the members of that Board are not so thoroughly familiar with all of the law relating to the power of such bodies. If I were making a guess, I would be very much inclined to hazard the prediction that the school will be completed on time, regardless of the outcome of this proceeding in court."

"The attempt to create the impression that the Council and the Mayor are trying to control or to usurp the authority of the Board of Education is absurd and only made for the purpose of obscuring the real issue. The order of the Council shows that the money is absolutely at the disposal of the Board for the purpose of building the school. Six or seven hundred dollars, the matter of interest charges can be saved to the taxpayers by allowing the money to remain on deposit in the Bank of Alexander & Co., where it is at present, and for that reason the Council insist upon its being allowed to stay there; the Board of Education insist upon placing it in the Citizens Bank where it will be of no benefit to the people."

"The settlement of this question should easily have been arrived at and surely called for no such exhibition as the one indulged in by the members of the Board of Education. Relying upon the correctness of its position in refusing to needlessly sacrifice the interests of the people, the Board of Council can afford to ignore the statement of the Board of Education, which reminds one of nothing so much as the whimpering of a spoiled child, when refused a toy with which it wishes to play."

County Unit Bill Killed.

The Senate has killed the county unit bill, not by direct vote, but by so changing the rules that it can never reach a vote.

The Committee on Rules reported yesterday morning in favor of so changing the rules that it will take two-thirds vote to call up a bill and by giving the Rules Committee alone power to call up bills for passage during the last ten days of the session, which begins to-day.

The vote was 22 to 14 in favor of the adoption of the new rules and several Republicans voted for the change. It also means the death of the Republican redistricting bills and other Republican measures intended to give the Republicans control of all the State institutions.

Hon. J. Hal Woodford Wins Contest.

The committee in charge of the Howard-Woodford contest case reported yesterday, the three Democrats on the committee signing the report, the two Republicans refusing to sign. The report was favorable to Woodford and the House by unanimous vote adopted it.

New Creamery a Success.

The new Paris Creamery started operations Tuesday and a large crowd of visitors were on hand, all seeming to take much interest and willing to lend a helping hand to make the creamery a success. There were 860 pounds of milk brought there and the butter fat was soon separated from it.

The first churning was had yesterday, resulting in the making of forty-two and a half pounds of beautiful and tasty butter. The churning will take place every other day. The management of the enterprise are fully satisfied with the test of the machinery and the response of farmers in bringing their supply of milk, however small.

Lot for Paris Public Building Deeded to Government.

Ex-Congressman Geo. M. Davidson, of Stanford, Ky., now Assistant U. S. Attorney for Kentucky, was here yesterday to close the contract for the purchase by the government of the Thornton property, on Pleasant street, for the Federal building site.

Mr. J. M. Brennan, Trustee for Mr. Anthony Thornton, deeded to the Government the property, and Attorney Davidson, in consideration thereof, handed him a check for \$7,200, the purchase price.

This leaves no doubt about the site for the government building in Paris. Just have a little patience now and we will probably live long enough to see handsome building on this beautiful site.

Tell The Truth.

The daily papers of the larger
cities are publishing news of the
opening of manufacturing
plants which were closed dur-
ing the panic and of thousands
of men being again put to work
in factories that had reduced
their working force. While it
is pleasant to record that busi-
ness is improving it does not
pay to try to force such im-
provement by misstatements.
The National Glass Budget,
published at Pittsburg, lets the
cat out of the bag concerning
the actual condition of affairs
in that great manufacturing
center when it editorially says:

"Four months ago, when
mills and factories in Pitts-
burg were closing down or
curtailing production daily
and throwing into idleness
thousands of workmen, local
publishers lied nobly, under
the mistaken idea that they
knew it all and that the masses
were not cognizant of what was
going on around them. If an
extra chore boy was put to
work at one of our mills the ad-
dition was multiplied by 1,000
and the spurt industry had
taken was announced under
glaring headlines, but not a
word did they say about the un-
favorable phase of the situation
—all of which was commend-
able and a credit to the framers
of public opinion. Readers of
the lies printed took their medi-
cine in silence, believing that
healthy conditions would speedily
return and that with their
advent the big dailies would
feel warranted in imerging
from the Ananias class. Busi-
ness has improved somewhat;
men thrown out of employment
last fall are slowly but surely
being called back to work
again, but some of the dailies
have reversed themselves and
are harping on the calamity
string in such a manner as can-
not fail to have a bad effect on
mercantile as well as industrial
pursuits. One has even gone
so far as to start a fund for the
out-of-work, with its accom-
panying front page of calamity
howling daily, which will
doubtless cause labor, to lose
more money hourly than the
donation hunters will be able
to drum up in a week."

Why does the Associated
Press and the "big dailies,"
which support Republican
policies, try to deceive the
people on what is actually hap-
pening? It is safe to say as
far as the Pittsburg papers are
concerned that they view the
panic and the present business
depression as an unanswerable
argument against the tariff
which protects the Steel and
other trusts.

The trusts may succeed in
again becoming prosperous, but
it will be as before at the ex-
pense of the people who pay
high tariff prices. Tariff re-
form is the only way that pros-
perity for the many can be
brought about and that is the
issue that the organs of the pro-
tected interests are trying to ob-
scure.

Douglas and Roosevelt.

While President Roosevelt is
trying to find out about the
matter of wages and working-
men it might be well for him
to take council of that wise
and patriotic Democrat [Hon.
William L. Douglas, who just
before he was elected governor
of Massachusetts in 1904
said:

"I believe the day is at hand
when the workman can no
longer be deluded by the cry of
protection. Of what possible
interest can it be to a work-
man out of a job and out of
money to tell him that the
country is growing greater,
grander and richer under the
Republican policy of protection?
What he wants is work, steady
work, with enough money in
his envelope on pay-day to
settle the necessary bills for
the support and education of
his family, and at the same
time have something left to lay
away to provide against old
age and sickness. Look around
you and see what a very small
percentage of working people
are enabled to do more than
plod along with little hope and
and provision for the future."

If President Roosevelt had
carried out the reforms that
Gov. Douglas stands for the lot
of the workingmen would have
been vastly improved.

Stearn and Solemn.

"We, the colored ministers
of the A. M. E., the A. M. E.
Zion, and the C. M. E. churches
of the United States, in con-
ference assembled in the city of
Washington, do hereby raise
our voices in stearn and solemn
warning to the coming national
convention not to put in nomi-
nation for the Presidency either
President Roosevelt or Secre-
tary Taft on pain of having ar-
rayed against either of those
gentlemen at the polls next
November the almost solid col-
ored vote of the North."

Great Caesar! It makes us
shudder to think what it will
cost the Trust backers of the
Republican party to stem this
revolt. The colored troops
fought nobly and the colored
politicians evidently intend to
emulate their example

Mr. Taft is playing politics
for all there is in it, while the
understrappers of the War De-
partment have to attend to the
government business which
Taft is paid to do.

Hung in Effigy.

The Danville Advocate says: Sun-
day morning there was suspended to a
tree in the court house yard a large
stuffed man representing Represen-
tative Lillard hanging in effigy. A large
placard accompanied the picture and
it bore some sensational statements
and damaging reflections upon Repre-
sentative Lillard. It is not known who
did the hanging. Saturday night a
large banner was hung across Main
street bearing a crude image of Lillard
which also bore serious reflections
upon the stand the Major took in vot-
ing for Bradley against the unanimous
wishes of his constituents. The
placard in the court house bore the
word, "Warning—You had better seek
a warmer climate." The Advocate
differs with the writer of the inscrip-
tion as Representative Lillard couldn't
well find a warmer climate than Boyle
county is just now.

SUNLAND CHIEF,

Premium Harness Stallion,

Will make the Season of 1908 at "Sunny Side Farm," two miles West of Paris, on the Cynthiana Pike.

Terms, \$20 to Insure Mare With Foal.

Mares kept at 10c per day on Grass. Will not be responsible for accidents or escapes.

SUNLAND CHIEF, Bay Stallion, 16 hands high, foaled in 1902; perfectly sound. Sired by Harrison Chief, Jr.

His dam "Becky," by Westwood 2333.

Harrison Chief, Jr., sired by Harrison Chief, 1st dam by Peavine;

2d dam by Edwin Forrest 49.

Westwood by Blackwood 74, dam Favorite by Abdallah 15.

SUNLAND CHIEF, is the best harness stallion that has been in Kentucky since Harrison Chief. He has fine all-round action and is fast, natural action.

In the show ring he has won at Cynthiana, Georgetown, Lexington and Paris, Ky., fairs.

At Cynthiana last year he defeated ten aged harness stallions, including the Champion of the Blue Grass Fair in 1906 and the Champion of State Fair in 1905.

At Paris Fair in 1907 he won the Aged Harness Stallion Ring and the Sweepstake Roadster Stallion Ring.

SUNLAND CHIEF's pedigree is full of the blood of the great show horses, Joe Downing, Indian Chief, Peavine, Harrison Chief, and the great mares, Lizzie Peables, Favorite and Lute Boyd.

SUNLAND CHIEF is type of the horse that brings to the breeder and farmer ready money; without much handling. That he will reproduce himself is beyond doubt.

"Ben-Hur" to Be Staged at the Opera House, Lexington.

When the curtain is drawn at the Opera House, Lexington on Thursday evening, March 19, the most elaborate, magnificent and historically correct production will be disclosed that has ever charmed and enthralled a theatre audience, for this will be the premiere of the Chicago Auditorium production of "Ben Hur" in Lexington. More than three years have elapsed since "Ben Hur" was presented in Lexington. At that time hundreds journeyed from this vicinity to witness it. No doubt the same excellent patronage will mark the forthcoming engagement.

"Ben Hur," with its lustrous Star of Bethlehem, its camels, Arabian steeds, Oriental trappings, and mimic splendor of the "gorgeous East" is beyond dispute the most elaborate spectacle ever staged in the history of the world. Its series of 17 scenes present to the eye a feast of multifarious beauty and variety, all set to a symphonic accompaniment of graceful music. The exciting episodes, such as the gally scene with its horde of chained slaves; the sea-fight, and rescue in mid-sea and the thrilling race with two chariots and eight horses, combined with the picturesque scenes illustrating the Wise Men in the desert, the moonlit lake in the Orchard of Palms where Ben Hur and Iras enjoy seclusion and make love in Iras' barge, the palm-waving worshippers on Mt. Olivet, and the Grove of Daphne with nymphs dancing in the skins of beasts to the music of kissing cymbals—simply captivate audiences wherever it is enacted.

"Ben-Hur" appeals to all classes, all ages and all denominations of the Christian faith, and draws to it, as to a place of worship hundreds of thousands who seldom, if ever, set foot within a theatre. The person of the Savior is never made to appear bodily in the play, yet in the scene in which the healing of the lepers is implied the approach of the Master is indicated by a stream of pure white light amazing in its effectiveness. This scene is the most remarkable of the play and is heightened in impressiveness by the singing of a chorus of one hundred voices, joining in "Hosannas" of praise to the Lord.

The engagement of "Ben-Hur" is for three nights only, opening on Thursday, March 19, with a special matinee performance on Saturday, March 21. Seats for the "Ben-Hur" season will be placed on sale Monday, March 16. Mail orders, accompanied by remittance, will be filled in order of receipt. The scale of prices will range from 50 cents to \$2.00. All communications should be addressed to Mr. Charles Scott, manager of the Opera House, Lexington.

Powers Determined to Run.

Caleb Powers is planning to make the race for Congress in the Eleventh district whether he released from jail at Georgetown before the nominations are made or not. The friends of Congressman D. C. Edwards are planning to have an early primary or convention called in the hope of keeping Powers out of the race.

When man takes iron for his blood he should be careful not to take pig iron.

Not At All.

"Doesn't seem a little inconsistent for us to send Missionaries over to China to teach them how to get to Heaven and then not let them come to this country?" asks Gerald Sullivan. The Maysville Ledger answers: "Not at all, Sully; America isn't Heaven, by a long shot."

TESTED AND PROVEN.

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Paris readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

Alex Talbott, living at 1800 Block So. Main Street, Paris, Ky., says: "I can well praise Doan's Kidney Pills for the benefit I received from their use. The statement I gave in favor of them in 1903 was true in every particular and holds good to-day. I have remained cured of the kidney trouble since and Doan's Kidney Pills, which I procured at J. A. Wilson's drug store, deserve all the credit."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The man who tries to explain to his wife is lost.

Thomas Pleads Equity's Case.

Hon. Claude Thomas, of this city, spoke to the farmers of Henry county at New Castle Monday in the interest of the Society of Equity, and his speech was pronounced one of the fairest from an Equity standpoint ever delivered in Henry county. Mr. Thomas urged the farmers of the county to stand together in the fight against the American Tobacco Company, and he said with a solid union on the part of the tobacco growers the battle would be won and in the future the farmer would get good prices for his product. The meeting was attended by a crowd which filled the court house, and one notable feature of the meeting was the fact that the entire audience was composed of members of the Society of Equity, and not a man identified with the anti-Equity movement in the county could be seen in the crowd.

Rank Foolishness.

"When attacked by a cough, or a cold, or when your throat is sore, it is rank foolishness to take any other medicine than Dr. King's New Discovery," says C. O. Eldridge, of Empire, Ga. "I have used New Discovery seven years and I know it is the best remedy on earth for coughs and colds, croup, and all throat and lung troubles. Most children are subject to croup, but New Discovery quickly cures every attack."

Now the world over as the King of throat and lung remedies. Sold under guarantee at Oberdorfer's drug store, 50c and \$1.00. Trial bottle free.

Declared the Candidate.

Judge O'Rear being the only candidate for the Republican nomination for the Court of Appeals from his district the committee met at Mt. Sterling Monday and declared him the nominee, thus doing away with the convention as originally called.

Immense Corn Crop.

The Centralia Guard says that the 1907 corn crop on the farm which Robert Johnson, of Mexico, Mo., sold to an Illinois man a year ago was valued at \$20,500. This farm is located ten miles north of Mexico. The owner lives in Illinois and rents his Missouri farm out for one-half of the crop raised thereon. His part of the 1907 crop was 25,000 bushels of corn, and at the low rate of 41 cents brought the owner of the land the neat little sum of \$10,250. This farm was the former home of John Robinson, the famous bareback rider.

A Higher Health Level.

"I have reached a higher health level since I began using Dr. King's New Life Pills," writes Jacob Springer of West Franklin, Maine. "They keep my stomach, liver and bowels working just right."

If these pills disappoint you on trial, money will be refunded at Oberdorfer's drug store. 25c.

A WORD in Regard to Catalogue Houses.

We are aware of the fact that a large per cent. of the Vehicle buyers are under the impression that they can obtain a vehicle from a Catalogue House Cheaper than from a dealer.

We can furnish the Same Vehicle from the same factory and on the same terms as one of the largest Catalogue Houses and save you the freight.

The following is a partial list with prices on same:

Catalogue No.	Style of Vehicle.	Price.
No. 11 K 714	Buggy "Leader"	\$ 49.95
No. 11 K 628	Buggy "Leader"	64.95
No. 11 K 130	Buggy	36.95

Over 160 Children Burned and Trampled to Death.

Between 160 and 170 children lost their lives as the result of a fire which destroyed the public school building in North Collinwood, a suburb of Cleveland, O. Wednesday night 165 corpses were in the improvised morgue, six children were unaccounted for and all the hospital and houses in the vicinity contained children, some fatally and many less seriously injured. The fire originated from a defective furnace. The children on the lower floor of the building escaped, but those on the upper floors became panic-stricken and stampeded. Many of the victims were trampled to death, while others were burned and still others were suffocated.

"The Man of the Hour" at Lexington, March 12-13.

The much talked of play, "The Man of the Hour," will be presented for the first time in Lexington, at the Lexington Opera House, Thursday and Friday evenings, March 12-13. It is safe to say that no play on the American stage today has attained such widespread popularity. It holds a record of two years' continuous run at the Savoy Theatre, New York.

The Company, presenting it in Lexington, is the same that was seen in Louisville Christmas week, and plays a return engagement there before coming to Lexington. It consists of such well known actors as Orrin Johnson, Robert A. Fisher, Harold Russell, George C. Staley, Thomas Meighan, William Deming, Samuel C. Hunt, Bennett Southard, Samuel Forest, Frank Russell, Basil West, Edward Culver, and the Misses Frances Ring, Louise Everts and Kate Lester.

"The Man of the Hour" tells a thrilling love story of city life, and is undoubtedly the greatest play of modern times. President Roosevelt says: "It is the best play I have ever seen."

Under Secret Orders.

An entire military company from Whitesburg, Ky., arrived in Hopkinsville Tuesday, and reported to Major Albrecht, who is in charge of the mountaineer militia guarding various parts of Western Kentucky from threatened attacks of night riders. The men are under secret orders and no information whatever concerning their movements is given out.

The jury is at work investigating all outrages committed in Christian county and a large number of witnesses have been summoned. One indictment has been returned against Robert Wood, a prominent young farmer, charging him with writing threatening letters signed "Night Riders."

On motion of the prosecution the case against George Powell, a wealthy farmer under indictment on the charge of being a member of the band that raided Hopkinsville last December was continued until the next term of Court.

Want a New Bridge.

There are petitions in circulation asking the Bourbon Fiscal Court to do away with the old covered bridge that spans Stoner, near the jail, and to erect a modern iron structure.

If there is any one thing needed in Bourbon county it is a new bridge at this point. The Fiscal Court has always been liberal in building bridges throughout the county and it is truly hoped that they will pay prompt attention to these petitions when presented.

The present bridge is nothing more or less than a rendezvous for thieves at this time. It is dangerous to pass through it after night.

THE SCHOOL BOARD

Issues Official Statement to the People of Paris Regarding Legal Proceedings to Secure Lawful Control of Certain School Funds.

At a call meeting of the Board of Education held Monday evening, March 2, 1908, at 7:30 o'clock, the following statement was adopted as an official statement of said Board and was ordered to be published in one or more of the Paris papers over the signature of the Board of Education. Said statement is as follows:

To the People of Paris: The refusal of the Mayor and Council to comply with the law requiring them to pay into the treasury of the Board of Education the school funds arising from the recent sale of school bonds has made it necessary for us to institute legal proceedings to enforce their compliance with the law. In order that the public may fully understand our attitude we feel impelled to make this statement both in justice to ourselves and to the people who elected us members of this Board.

The statement published by the Mayor in the Bourbon News of last Friday and the Paris Democrat of Saturday is entirely misleading as it labors to conceal the real questions at issue and to make issue of matters having no connection whatever with the subject matter in discussion. The effort to make it appear that this Board was prompted even in the slightest degree by a desire to favor any institution of this city is utterly without foundation in fact. Not a member of this Board is interested to the extent of one cent in the institution he refers to, and only one member of this Board is a depositor in said institution, and even he keeps an account in another bank as well as in this one. Undoubtedly an effort is being made to use these funds for the benefit of a bank but the effort is not made by us as we think the public do not need to be assured.

There are two questions involved in this controversy. As tersely as we can state them here they are:

First—Who is the legal custodian of the funds in question?

Second—Shall this Board remain an independent body, or shall it permit the Mayor and Council to usurp its rights and functions and control it in the discharge of its duties?

As to the first of these questions Section 3590, Kentucky General Statutes, reads as follows: "Said Board of Education SHALL ELECT ITS OWN TREASURER, and fix bond for same, who shall keep a distinct account of all monies belonging unto, or WHICH MAY HEREAFTER BE DEDICATED TO OR SET APART FOR PUBLIC SCHOOLS, and shall only pay out or deliver any of said funds upon the warrant of the Board of Education countersigned by the Secretary and approved by the President of the Board of Education, and shall perform such other duties as may be prescribed by said Board."

Under this section the Board of Education

IS REQUIRED TO ELECT ITS OWN TREASURER, and this Treasurer so elected shall have custody of all school funds which properly come under control of the Board of Education. No person on earth has authority to demand that the Board of Education shall allow anyone but those duly elected Treasurer to have custody of any funds which this Board has the right to control and expend.

What funds, then, properly come under its control? Read this: Section 3560, Kentucky General Statutes says: "Said Board of Education SHALL HAVE EXCLUSIVE CONTROL OF ALL SCHOOL FUNDS OF THE CITY FROM WHATEVER SOURCE THE SAME MAY BE DERIVED. It shall have power TO EXTEND ALL MONEYS IN THE INTEREST OF THE PUBLIC SCHOOL OF THE CITY, and the warrants of the Board of Education countersigned by the Secretary and approved by the President of the Board shall be honored by the Treasurer to the amount of the school funds in his custody."

Now this law is plain enough to be understood by any intelligent child. It gives the Board of Education exclusive control of right to expend all moneys to be used in the interest of the public schools "from whatever source the same may be derived" and the Treasurer of said Board is the legal custodian of all the funds which it has the right to control, and all warrants of the Board must be drawn on the Treasurer of the Board and no one else. Surely, there can be no doubt that money arising from the sale of bonds which the people vote for the purpose of building a public school in Paris is "money in the interest of public schools of the city" and therefore "school funds" within the meaning of the statute, and therefore subject to the "exclusive control" of the Board of Education.

And yet the Mayor and Council, in the face of this plain language of the law, have refused to surrender this money, thus bringing this Board face to face with the disagreeable alternative of either taking legal steps to enforce what seem their plain rights, or of permitting these gentlemen to annul the law under which this Board exists, to usurp its rights and functions and assume control of the duties and obligations which the law lays upon us alone, to set aside the Treasurer whom we have elected as required by law, and amply bonded for all funds that may come to his hands, and impose upon us against our will a custodian of our funds not chosen by us and under no bond to us for as much as a penny.

To give some color of plausibility to their claim to hold this money they make the specious plea that it is done in the interest of the tax-payers with the purpose of saving a few hundred dollars of interest charges.

This plea will impose upon none but the ignorant and the unthinking. For them to hold this fund is contrary to the plain letter of the law and as officials of this city they cannot justify themselves in doing an illegal act simply to save a few dollars more or less to the tax-payers. No tax-payer in Paris, we believe, would wish his tax

burden lightened at the sacrifice of a violation of the law by the officials whose sworn duty it is to uphold the law inviolate. The members of this Board pay many times as much property tax as the Mayor and the whole Council; and while they would welcome any proper lightening of the tax burden they cannot consent to be made a party to a violation of the law to escape a few dollars of taxes. Such a plea coming from the executive officers of the city is somewhat amazing.

Their solicitude about the tax-payers might be pathetic if it were not ludicrous. A Council which enjoys the unique distinction of having for the first time in the history of the city so far as we know voted a salary to the incoming council knowing that the incoming Council would be themselves and who, while the Mayor was a member of the Council but a candidate for Mayor and when it was known he would be elected raised the salary of the Mayor's office from the modest sum of three hundred dollars to the handsome sum of twelve hundred dollars per year, an increase of 300 per cent. Such a Council may at least be said to be not entirely consumed by sympathy for the tax-payer. It is worth noting by the public, about whose interests these gentlemen are solicitous, that this action of the Council voting themselves compensation and so enormously increasing the salary of the Mayor was taken on the 25th of October, 1905, just previous to their election, and when it was too late for opposition to declare itself, and Mr. O'Brien then sitting as a member of the Council is noted of record as voting for this increase of salary. The people have to pay these salaries and if the saving of five or six hundred dollars is of so great importance there are probably some persons who think it might be saved by retrenchment here where the saving could be done without overriding any law. The Board of Education always has and still serves without compensation. The truth is this matter is only another move in the warfare which now for more than a year has been waged against this Board with the purpose of bringing it under the domination of the Mayor, and which culminated last Fall in an effort to defeat the re-election of this Board. The result of that election and the overwhelming verdict of the people upon the issues raised by the Mayor is still fresh in the public mind. We had no thought that the great majority given us in that election was meant as a compliment to us. It was a tremendous demonstration of popular condemnation of the Mayor's course and approval of this Board's refusal to allow any outside dictation in the discharge of its duties.

We deeply regret the necessity of bringing this action but if the Board of Education is to preserve its usefulness to the public it can only do so by preserving its independence and refusing to allow its rights and functions to be usurped by others. This is our conception of the duty of our position, and if this does not meet the approval of the people who honored us with their confidence by electing us, we will gladly lay down these duties when the time arrives and allow others to

Bad Symptoms.

The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragging-down feeling in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without blood, is suffering from weakness and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into maladies which demand the surgeon's knife if they do not result fatally. No medicine extant has such a long and unbroken record of cures in such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong reputation for its safety to the weak and nervous as this. It is a non-narcotic, non-poisonous, non-drowsy, non-opioid, non-habit-forming drug. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No alcohol, harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle-wrapper and attested under oath. In any condition of the female system, Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of this "Favorite Prescription." It will not perform miracles; will not cure tumors—no medicine will. It will often prevent them. If taken in time, and thus the operating table and the surgeon's knife may be avoided.

Women suffering from diseases of long standing, are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address as above.

assume them who can more nearly meet the public wish.

Meantime, the dearest desire of our hearts is to push the completion of the new building so that our children can be taken out of the overcrowded places where we have been compelled to house them since the burning of the old structure, and where it is impossible to do the best work of which the school is capable. It is our purpose to push the work through with all possible dispatch as soon as this fund in controversy is paid over to our Treasurer. But we fully appreciate all the possibilities of worry, delay and expense which lie within the power of the Mayor and Board of Council. The covert threat is already made that they will carry the case to the Court of Appeals. That does not mean that they have any hope whatever that the judgment of the lower court would be reversed, but it does mean that the tax-payers, in whose interest they profess to act will in any event have to pay all the cost and expense of the litigation for both litigants, which, if they do not succeed in reversing the lower court, would include 10 per cent penalty on the amount in litigation, which would itself amount to \$4,200. It means that the new school building will stand as it is for at least another year or more, and that our children will have to remain a year longer scattered all over the city, in stuffy, badly lighted, badly ventilated and unhealthy houses which the tax-payers must pay rent for at the rate of \$100 per month for as long as we have to use them, and all for what? Simply that these gentlemen may hold this fund for a year or more in their favorite bank, and incidentally even up a little with this Board.

They can do all this and we cannot prevent it, but if they do, then let the people see to it that their wrath, when they look upon the dismantled walls of their new building exposed to the destruction of the weather, shall fall upon those who are responsible and not upon the innocent.

BOARD OF EDUCATION.

Unequaled as a Cure for Croup, besides being an excellent remedy for colds and throat troubles, Chamberlain's Cough Remedy is unequaled as a cure for croup," says Harry Wilson of Waynetown, Ind. When given as soon as the croupy croup appears, this remedy will prevent the attack. It is used successfully in many thousands of homes. For sale by W. T. Brooks. "You need no other guarantee."

A Cure for Misery.

"I have found a cure for the misery malaria poison produces," says R. M. James, of Louisville, S. C. "It's called Electric Bitters, and comes in 50 cent bottles. It breaks up a case of chills or a bilious attack in almost no time; and it put jaundice clean out of commission." This great tonic medicine and blood purifier gives quick relief in all stomach, liver and kidney complaints and the misery of lame back. Sold under guarantee at Oberdorfer's drug store.

Prof. H. A. Howell, of Havana, Cuba, Recommends Chamberlain's Cough Cure. "As long ago as I can remember my mother was a faithful user and friend of Chamberlain's Cough Remedy, but never in my life have I realized its true value until now," writes Prof. H. A. Howell, of Havana, Cuba. "On the night of February 3rd, our baby was taken sick with a severe cold, the next day was worse and the following night his condition was desperate. He could not lie down and it was necessary to have him in the arms every moment. Even then his breathing was difficult. I did not think he would live until morning. At last I thought of my mother's remedy, Chamberlain's Cough Remedy, which we gave, and it afforded prompt relief, and now, three days later, he has fully recovered. Under the circumstances I would not hesitate a moment in saying that Chamberlain's Cough Remedy, and that only, saved the life of our dear little boy." For sale by W. T. Brooks. "You need no other guarantee."

CONSUMPTION'S WARNING

The aid of scientific inventions is not needed to determine whether your lungs are affected. The first symptoms can be readily noted by anyone of average intelligence.

There is no disease known that gives so many plain warnings of its approach as consumption, and no serious disease that can be so quickly reached and checked, if the medicine used is Dr. Boesche's German Syrup, which is made to cure consumption.

It is in the early stages that German Syrup should be taken, when warnings are given in the cough that won't quit, the congestion of the bronchial tubes and the gradual weakening of the lungs, accompanied by frequent expectoration.

But no matter how deep-seated your cough, even if dread consumption has already attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble.

OUR WASHINGTON LETTER.

WASHINGTON, March 4.—The Taft men are said to be considerably worried. Aye, indeed, report has it that every one of the candidates for the Presidential nomination, Democrats and Republicans alike, as much worried over the inauguration of a well-oiled, smooth-running "second elective term" campaign to keep Theodore Roosevelt in the White House for another period of four winters. Senator Bourne, of Oregon, who in season and out has argued for the renomination of the President, has gathered round him a few men who are for Roosevelt first, last and all the time, and has opened headquarters here for the purpose of rallying the third terms and forcing another term on the Chief Executive. Senator Bourne has consulted no one, but has gone right ahead with his plans, regardless of whether Mr. Roosevelt, or anyone else for that matter, likes it. Of course, there are some who contend that the President was not sincere when he emphatically announced that under no circumstances would he again be a candidate for, or accept, a nomination to succeed himself. The majority, however—Senator Bourne among them—do not for an instant doubt that Mr. Roosevelt was decidedly in earnest. The Oregon statesman admits this, but declares that the demand for his re-election will be so strong that, whether or no, he will be compelled to accept. It was generally believed that with Mr. Roosevelt's reiterated refusal to consider a renomination, the "second elective term" idea would suffer a quiet death, but now that an active campaign to this end has been started, disinterested politicians and officeholders are awaiting with relish the outcome of the clash they feel sure will come.

Whatever differences of opinion may exist, in or out of Congress in reference to most of the President's policies, his demand for the conservation of the country's natural resources find no opponents and is steadily attracting more widespread public attention and support. As the date of the President's conference with the Governors of the States on this subject approaches, writers and speakers are giving more and more attention to various phases of the question. Appleton's Magazine has started out to arouse the public mind to the gravity of the situation and in its March number publishes some startling facts in reference to the rapid exhaustion of national resources. According to the statistics given in this article, the timber supply of the country will be exhausted at the present rate of consumption in from 23 to 33 years; the coal resources will be used up inside of a century, a billion tons of valuable soil being washed away yearly by floods in the rivers, largely caused by the denudation of forest areas, and the productive power of farming lands is being decreased by improper methods of tillage. The remedy proposed by the Appleton article for this rapid depletion of the wealth-producing sources of the nation is to interest the women of the country in the subject so that they shall impress the importance of conserving America's natural resources upon their husbands and particularly upon their children, to the end that a more far-sighted policy be adopted in dealing with this question. Predictions as to when the sun's heat will give out or Niagara run dry usually attract little attention because the dates are so far in the future, but if all the available timber in the country is likely to be used up within the next twenty-five years it probably will not be difficult to convince most persons that it is high time to put an end to forest waste.

Congress is receiving petitions and memorials from farmers' organizations and commercial bodies, protesting at the attempt of certain interests which are seeking to restrict their markets, and thus lower prices, by means of legislation, making it illegal to buy and sell for future delivery, grain, cotton and produce on established exchanges. Several bills to this effect have been introduced both in the Senate and the House and are now being considered in committee. While their avowed object is to stop speculation, they would in effect overturn in a moment, say the petitioners, the development of fifty years by which the producers of grain and other staples now are able to sell to a world market. The subject is in reality an old one, and has been passed upon by the Supreme Court of the United States, which held that "future contracts on the Board of Trade are no gambling transactions." This decision which is frequently referred to, epitomizes the situation in the following terse words: "Of course, in a modern market contracts are not confined to sales for immediate delivery. People will endeavor to forecast the future and to make agreements according to their prophecy. Speculations of this kind by competent men is the self-adjustment of society to the probate. Its value is well known as a means of avoiding our mitigation catastrophes, equalizing prices and providing for periods of want. It is true that the success of the strong induces imitation by the weak, and that incompetent persons bring themselves to ruin by undertaking to speculate in their turn. But legislatures and courts generally have recognized that the natural evolutions of a complex society are to be touched with only a very cautious hand, and that such coarse attempts at a remedy for the waste incident to every social function is a simple prohibition and laws to stop its being are harmful and vain."

Dormitory Burned.

Breckinridge Hall, one of the largest dormitories of Central University, Danville, was destroyed by fire Monday night. The library was saved. The loss is about \$40,000.

Anarchist Killed.

George M. Shippy, Chief of Police of Chicago, engaged in mortal combat with an anarchist in his home Tuesday morning, slaying him, but not before the would-be assassin had stabbed the chief in the hand, shot the Chief's son in the lungs and sent two bullets into the body of James Foley, the coachman, who sprang to the rescue when he heard sounds of shots and struggle.

It was on yesterday that Prof. Mitchell, who was formerly bandmaster at Winchester and leader of the orchestra at the Paris Grand opera house, had been sentenced to death for the murder of a man by the name of Stapp, at Rome, Ga. Rev. C. J. Armstrong, of Winchester, has received the following letter, which shows that the sentence as life imprisonment:

Marietta, Ga., Feb. 24, 1908.
Rev. C. J. Armstrong.

My Dear Sir—Your letter of the 15th received. Prof. Mitchell was tried and convicted in Rome, Floyd county, Ga. All I know of it is from newspaper accounts. It seems Mitchell and the man he killed boarded at the same hotel and they had some words about Mitchell using the ladies' bath room, and a few days later they met and Mitchell shot him without saying much to him. Mitchell was ably defended by Hon. Seaborn Wright, of Rome, Ga., but was convicted and sentenced for life in the penitentiary.

Very truly yours,
B. F. SIMPSON.

DEATHS.

—George H. Moore, aged 28 years, the youngest son of Capt. and Mrs. T. E. Moore, formerly of Bourbon, died at the home of his wife's father, Mr. Charles Daugherty, at Lexington, Sunday. Mr. Moore had been an invalid for nearly a year, having but several months ago returned from Mexico, where he went in search of health. Besides his parents and wife he is survived by the following sisters and brothers: Mrs. M. D. Ament, of St. Louis, Mo., and Mrs. J. Ernest Cassidy, Mrs. Ernest Hornbrook and Miss Minnie Moore, of Lexington; Mr. John H. Moore, of Kansas City, and County Attorney, Thomas E. Moore, Jr., of this city.

—The funeral services over the remains of John H. Wesselman, Jr., aged 19 years, who died at the home of his father, in Fayette county, Tuesday night, were held at the grave in the Paris cemetery Thursday at noon, conducted by Elder Carey E. Morgan. The young man's mother preceded him to the grave about one week ago.

—Frank Lyons died at the residence of his mother, Mrs. Maria Lyons, on Main street, Tuesday morning, at 10 o'clock, of pneumonia. The deceased was working Saturday and the announcement of his death was a shock to his numerous friends.

Mr. Lyons was an efficient and popular engineer of the L. & N. railroad. He was a brother of the late George Lyons, and Harry and Albert Lyons, of this city. He is survived by his wife, nee Ethel Curtis, and a little daughter.

The funeral services will be held this (Friday) morning at the Catholic church, conducted by Rev. Father James Cusack. Burial in Paris cemetery.

MATRIMONIAL.

Frank H. Bryan, one of the Louisville & Nashville Railroad, and Mrs. Lucy Mann Thompson, both of this city, were quietly married at the Leland Hotel, Lexington, Tuesday afternoon at 5 o'clock, the Rev. Jeremiah P. Strother, of the Paris Methodist church, performing the ceremony. This is the second marriage for both. The bride is the daughter of Esquire and Mrs. Fletcher Mann and was the efficient bookkeeper for James Fee & Son.

—A marriage license was granted Wednesday to James Smart and Miss Minnie Clifford. They were married in the private office of the County Court Judge Dundon officiating.

A license was also granted to Henrietta Knight and C. F. Abbott, who were afterwards married by Elder Carey E. Morgan, at his residence.

The Thrice-a-Week World.

A President of the United States will be elected this year. Who is he and who is the man he will beat? Nobody yet knows, but the Thrice-a-week edition of the New York World will tell you every step and every detail of the most absorbing interest. It may not tell you what you hope, but it will tell you what is. The Thrice-a-Week World long ago established a character for impartiality and fearlessness in the publication of the news, and this it will maintain. If you want the news as it really is subscribe to the Thrice-a-Week edition of the New York World, which comes to you every other day except Sunday, and in thus practically a daily at the price of a weekly.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and the Bourbon News together for one year for \$2.50. The regular subscription prices of the two papers is \$3.00.

News Letter From Sunny South.

The trip from Cincinnati was decidedly uneventful and but for the fact that most delightful company was aboard, would have abounded in monotony. Ex-Congressman and Mrs. Gooch, of Kentucky, just returning from Washington, were most charming people. She was seeking the wondrous effects of the Southern sun, as were we.

The climate here on the gulf is glorious and a pleasing panacea for all ills. Our Kentucky May weather does not equal it.

Upon entering the city of Mobile on the evening of February the twenty-ninth we could readily observe that some festivities of unusual character were in preparation. The entire city, as it were, for blocks in every direction, was ablaze with electric lights in gold and purple, the Mardi Gras colors. The splendor and brilliancy of electrical illuminations, the lavish use of bunting and flags with thousands of incandescents, in streams and bunched and entwined, making Mobile a veritable paradise of gayety.

Mobile as we have learned, is justly entitled to its claim as being "The Mother of Mysteries," besides she is perhaps the only city in America that can boast the distinction of existing under five national governments. The flags of England, France, Spain and the United States and the Confederate States of America. This adds interest to her fame as the carnival city because of the blending of blood of so many nations in her early career. His royal majesty, Rex Felix III, arrived in the afternoon of Monday, March the second and was welcomed by the Imperial band, the Alabama State artillery, the United States Revenue cutter, Winona, Captain Hanks with all his officers in full dress. The Winona fired twenty-one guns in honor of his majesty, who then headed the parade, consisting of dozens of magnificent and gorgeous floats, unique in every particular, with here and there bands of music. An interesting feature and new to us were companies of boys between the ages of ten and fifteen from the Catholic Military Institute.

In the evening we attended the coronation of the King and Queen, which was very beautiful—an elaborate affair. A member of the "mill tribe" was especially honored by the king, being presented with a diamond ring as his appreciation of his poor and humble efforts to serve his people.

The Queen was a stately blonde and was a vision of beauty in the resplendent robes of her royal station. A mantle of satin trimmed with ermine hanging from her shoulders covering a gown of white satin. Her jewels were dazzling. At the throat gleamed and sparkled the royal gift of the king, a brooch of diamonds and pearls. She wore on her head a crown of Roman gold and jewels. The queen was attended by twelve waiting maids, all beautifully gowned.

In the afternoon we spent a very pleasant hour aboard the flotilla, consisting of five torpedo boats, two of them especially interesting historically, they having been used in the Spanish American war—the flagship Porter and the Tingey. The torpedoes fired by these ships cost \$3,500 and weigh from seven hundred to a thousand pounds. During war the ships can only carry three torpedoes. The flotilla left immediately for St. Joseph's Bay, Florida, for target practice. We leave tonight for New Orleans.

LEXINGTON, KENTUCKY.

May Unit the State.

Upon the decision of a civil suit at Princeton, Ky., next week, depends further insurance of tobacco barns and crops in Kentucky. The case grows out of the burning of a tobacco barn at Princeton in November, 1907 to which night riders are said to have applied the torch, and in which the American Tobacco Company or the Imperial Tobacco Company lost \$40,000.

The companies are resisting payment, claiming that in the policies there is a riot and incendiary clause, which exempts them from liability. Judge Fleming Gordon will try the case. Should he hold that the insur-

ance companies must pay, rather than stand for future losses at the hands of the night riders the insurance companies will all agree to cancel tobacco business in Kentucky and withdraw from the field in a body.
